

2011 TERYX™ 750 Fi 4x4 SPORT

RECREATION UTILITY VEHICLE

Kawasaki

LIME GREEN

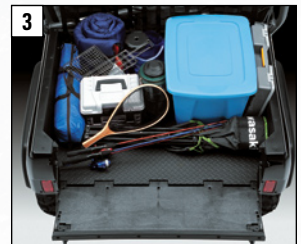

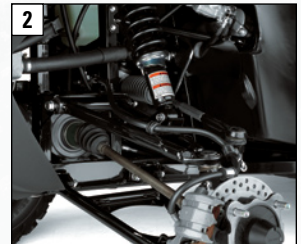

Kawasaki continues to stake its claim in the realm of recreation utility vehicles with a tough line of Teryx RUV models. The evolution of this incredibly adaptable vehicle has been legendary: An aggressive front end with a hinged, forward-tilting hood offers front suspension and cooling system access and eases maintenance. The mighty V-twin's cooling system enhances long-term reliability, and an even sturdier tilting bed out back provides extra durability. The Teryx 750 Fi 4x4 SPORT is designed to offer advanced technology and a high level of performance.

* Canadian model may not be exactly as shown

- 1** Liquid-cooled, 749cc, SOHC, 4-valve-per-cylinder fuel-injected, 90-degree V-twin engine.
- 2** High-grade Sport-focused Suspension enables hard riding.

- 3** Substantial cargo carrying capacity of 227 kg.
- 4** Dynamic stability with wide track chassis. Giving riders greater confidence to traverse technical terrain.

ADDITIONAL SPORT FEATURES

- 1 High-performance cast aluminum wheels** remove approximately two pounds of unsprung, spinning weight from each corner for a performance boost you can feel.
 - 2 High-performance aluminum-bodied gas-charged piggyback-reservoir shocks** at all four corners are fully adjustable for spring preload, compression damping and rebound damping, for a completely tuneable ride
 - 3 Formidable braking power.** The independent sealed, internal wet brakes are unaffected by mud, dirt or rocks and have a longer wear life than standard disc brakes.
- ◀ **Multi-function display on all models**
